Re: National Weather Warnings

Dear CFR volunteer

As the country has already experienced periods where weather warnings have been put in place, I would ask that you pay special attention to the advice given by Met Eireann, An Garda Síochána and the RSA in relation to driving and being exposed to adverse weather. Your safety is of paramount importance to us and it is essential that you do not take any unnecessary risks to respond to a call out. You should always put your own safety and welfare at the forefront of any CFR response and monitor all weather conditions and warnings before setting out on your journey.
